# RAPS SECRET SOCIETIES

Secrety, and said:

Secret societies are and always have been a menace to order and law. They inculcate in their members a spirit of insubordination, prevarication and falsehood, and thereby indirectly, if not directly, shield from punishment members leagued together by secret pledges and passwords.

From the day when Robespierre and other Jacobins hoisted the red flag of the Commune to the night when McNamara and other anarchists blew up the "Times" building at Los Angeles every vile conspiracy that has shocked mankind and convulsed the nations may be traced to the evil influence of secret societies.
